

As an Interstate Truck Driver and listener of XM Radio, I NEED XM radio and especially it's traffic and weather channels. With this service, I'm able to effectively pre-plan my routes and make any adjustments while enroute. This is a service for which I gladly pay. The ability to listen to stations without "channel surfing" keeps my attention to my driving duties and thereby makes traveling safer for all of us. It should NOT be up to the National Association of Broadcasters to dictate that which I chose to hear and in fact, I'm appauled that I should be subjected to their mandates. Whith this said, I respectfully urge the FCC to REJECT the NAB's petition 04-160 and to support XM's ability to provide the kind of programming that I demand and deserve. Thank you.
